

VALENCIA

Spiral staircase with continuous handrail

Diameter	Available as Ø130 or Ø150 cm.
Floor-to-floor height	13 rises (12 treads and platform) - for heights between 260 and 292,5 cm.
Rise	Adjustable between 20,0 and 22,5 cm.
Supporting elements	Grey, RAL 9006.
Treads	Thickness: 35 mm. Wood: beech multiplex (varnished).
Banisters	Metal balusters (Ø20mm) with continuous handrail. Distance between balusters adjustable between 100 - 120 mm.
Flexibility	Can be used as left- or right turn and for square opening. The angle between treads can be adjusted, which influences the step overlap and the start baluster's positioning (see illustrations on next page).
Packaging	All-in-a-box.
Accessories	Balcony banisters (as kit) sold in 1 m sections. Child guard.

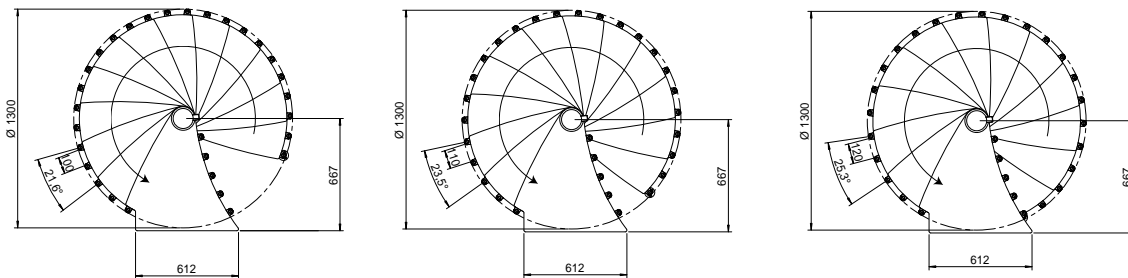

VALENCIA
